

First Responders/Fire Science & EMT

This class trains students as ambulance attendants, emergency room attendants, first aid attendants, or as part of an entry level for firefighter positions. This course includes classroom instruction, lab and required unpaid community site training. The class provides students an opportunity to identify those qualifications and requirements for the position of Firefighter. The course focuses on a variety of fire service related subjects including the history of fire service, fire department organizations, fire behavior, firefighting tactics and strategies, hazardous materials, fire safety, tools and equipment, fire prevention
